

Woodcrest chairs – EN 1729 certified

The patented, lightweight Woodcrest chair is made of laminated hardwood. The one piece construction is easy to clean and there are no joints to work loose.

The wide seat and ergonomic design support good posture.

Chair tips reduce noise and won't mark the floor.

The rounded "waterfall" chair front adds comfort.

The wide-based design makes the chair stable without having the legs protrude.

Promoting sustainable forest management – For more info: www.pefc.org

You can stack these chairs five high.
