

# Gliders

Our gliders are safe and durable. We've shielded the moving parts with a wooden base and fabric apron. The Bench glider invites a carer and child to enjoy a book together.

**Community glider J900**

**Glider covers J905**  
Includes 2 complete sets.  
2 back covers and 4 armrest covers

**Bench glider J920**

**Bench glider covers J925**  
Includes 2 complete sets.  
2 back covers and 4 armrest covers

Dimensions (cm)	Community glider	Bench glider

Seat depth	51	51
Overall height	104	104
Width and depth	66 x 84	97 x 84
<b>Maximum weight limit (kg)</b>	<b>109</b>	<b>204</b>

Cleanable cushions are covered in a tough anti-microbial fabric designed specifically for restaurants, hospitals and other high-use areas.

## The fabric is called panvelle stretch™

Restaurants use it because it's so tough and because it resists wear and staining. Healthcare settings count on its durability and moisture-blocking properties.

**Stain resistance:** Almost everything comes off with soap and warm water.

**Moisture resistance:** Nothing will get past the moisture barrier.

**Breathable comfort:** in hot or cold weather.

**Microbial resistance:** helps prevent the growth of bacteria.

## Optional glider covers snap over back and armrests.

These machine-washable covers come in sets of two, so one set can be laundered while the other is in use.
